

Integrated Science Curriculum AMCAS Course Entry Guide

This guide is intended as a resource for those students who completed two years of ISC and are applying to allopathic medical schools using AMCAS. Students who did *not* complete both full years of ISC should consult with health professions advising. All former ISC students are encouraged to consult with AMCAS directly before application submission to lessen the likelihood of verification concerns. Be sure that a copy of the [ISC letter](#) is sent along with all official transcripts. *Note that the "Course equivalent at Virginia Tech" column is not identical to when you receive equivalent credit for those courses. Please consult with your ISC advisor to determine when full course equivalents are earned based on the ISC courses you have completed.*
